REMARKS

In the last Office Action mailed July 30, 1998, the Examiner suggested the following claim ("suggested claim") for the purpose of instituting an interference:

A method of displaying a paging message using an analog watch mechanism that includes a body with marks thereon and a plurality of hands for displaying time, the method comprising the steps of:
(a) receiving a paging message; and
(b) moving one of said hands to point to one of said marks to indicate a paging message.

In the July 30 Office Action, the Examiner indicated that the suggested claim must be copied exactly as suggested for the purpose of instituting an interference with U.S. Patent No. 5,479,378 to Yamada et al. ("Yamada"), but did not indicate whether U.S. Patent No. 5,329,501 to Meister et al. ("Meister") would also be included in the interference as requested by applicant in the response to the February 17, 1998 Office action filed April 27, 1998.

During a telephone discussion with the Examiner on August 24, 1998, the Examiner clarified that the suggested claim in the July 30 Office Action is for the purpose of instituting an interference with both Yamada and Meister.

In accordance with the present response, new independent claim 21 has been added which corresponds exactly to the Examiner's suggested claim in the July 30 Office Action.
